Disaster Damage:

Hurricane's Katrina and Rita legacy to coastal Louisiana was an unprecedented wake of death, destruction and devastation. Taken together, 1,464 people lost their lives, more than 200,000 homes and 18,000 businesses were destroyed and billions of dollars in property was impacted. Hurricane Katrina approached New Orleans and the Louisiana-Mississippi state border on August 29, 2005 at a Category 5 level, and the fifth-strongest ever recorded hurricane. Before reaching land it was downgraded to a Category 3, but caused massive destruction and severe damage up to 76 miles east of the storm's center. Orleans, Plaquemines, and St. Bernard Parishes suffered widespread flooding as a result of storm surge overtopping or breaching area levees. Along the north shore of Lake Pontchartrain, up to six feet of water inundated the cities of Mandeville and Slidell. The City of New Orleans was under a mandatory evacuation for more than a month. Less than a month later on September 24, Hurricane Rita, the second strongest ever to enter the Gulf of Mexico came ashore, also as a Category 3, and flooded the coastal areas of southwestern Louisiana in the area around Lake Charles, impacting nearly a half million households. Hurricane Katrina will most likely be categorized as the third deadliest and the costliest storm in U. S. history. While hurricane Rita exacted a lower death toll, taken together, these storms wrought catastrophic destruction on the Louisiana coastal areas, exacting an enormous toll on the material, financial and emotional resources of hundred's of thousands of Louisianans. While the impact was wide-spread and indiscriminate of income and social status, the impact of the hurricanes on the poor was particularly devastating, especially in Orleans Parish where the U.S. Census in 2000 reports only a 46.5% homeownership rate (compared to 67.9% in the State), a median household income of \$27,133 (compared to \$32,566 in the State), and a poverty rate of 27.9% (compared to a state rate of 19.6%). In contrast, while Calcasieu, Cameron, Plaquemines and St. Bernard Parishes sustained major damage, they had higher homeownership rates (ranging between 71% and 85%), higher median incomes (ranging between \$34,000 and \$38,000) and lower poverty rates (12% to 18%). The concentration and number of persons in extreme poverty neighborhoods exacerbated the negative impact on the poor principally in New Orleans. According to the Brookings Institution (October 2005), one out of every four neighborhoods in the city of New Orleans was classified as an "extreme-poverty" neighborhood, with at least 40% of its residents living below the federal poverty threshold. These 47 neighborhoods were home to nearly 100,000 residents and had an average household income which lagged the City's by over \$17,000. The Congressional Research Service (CRS) calculates that the poverty rate in the flooded and damaged areas in the State of Louisiana was 21.4%, confirming the widespread sentiment that high poverty neighborhoods were disproportionately flooded (CRS, November 4, 2005). The social impacts were also greater for those most vulnerable before the storms. These individuals were less connected to the workforce, had educational disadvantages, were elderly or disabled, or were children. Nearly 90,000 persons aged 65 and older were likely displaced by the storms, many of whom lived alone and had at least one disability. Displaced aged persons al

Disaster Damage:

so were poor (an estimated 15%) and one quarter lacked vehicles. The child poverty rate in the areas affected by the hurricanes was over 30% (CRS, November 4, 2005). The fragility of the most affected populations places a greater burden on the federal, state and local resources available for recovery efforts. The poor standing of the impacted population before the hurricanes severely stretches Louisiana's state and local resources, making the need for federal assistance even more critical.

Recovery Needs:

The current and projected financial impact on Louisiana from Hurricanes Katrina and Rita has reached into the tens of billions of dollars, according to estimates from a number of groups, think tanks and government agencies. Given the extensiveness of the damage, there is a great deal of uncertainty regarding estimates of the impact on property, on governments and on the economy. The variation in the estimates of different organizations creates a greater challenge for the State in assessing its needs and the resources necessary to address those needs. For example, according to preliminary estimates from the Louisiana Recovery Authority (LRA), the Governor's State-wide coordinating body for all recovery efforts,

the 2005 hurricanes had an impact of \$75 - \$100 billion on property and infrastructure and \$15 - \$20 billion in temporary relief services. However, the Federal Emergency Management Agency (FEMA) projects an \$18 - \$25 billion impact on property and infrastructure. For the State's economy, the LRA states that the storms are expected to inflict from \$50 - \$70 billion in losses to Louisiana's economy (defined as nominal Gross State Product) and cause \$8 - \$10 billion in lost state and local revenue over the next five years. On the other hand, the Louisiana Legislative Fiscal Office projects a \$40 - \$60 billion impact on the economy and a \$4 - \$8 billion in lost revenues. Even before the hurricanes, the State was in a precarious situation, with many unmet needs in the areas of infrastructure, education, economic investment, health care and social services. The impact of the storms on the executive budget and on state revenues makes it even more difficult to deal with the critical needs caused by the hurricanes without substantial assistance from the federal government. According to FEMA, the total number of applicants for FEMA assistance related to hurricanes Katrina and Rita was 1.89 million as of January 10, 2006. These applicants have received individual level assistance such as clothing, food, and temporary housing as described below. Additional resources are needed for the estimated 900 families or 2,700 people that have exhausted the subsidized hotel room assistance as of February 7, 2006.

Activity Description:

A large number of homeowners, whether Road Home participants or not, have faced difficulty in securing sufficient resources to fully rebuild their homes. The Road Home program has provided many homeowners with significant funding to complete this process. Unfortunately, due to increased costs of construction, materials and labor, these funds have often fallen short. Additionally, a number of homeowners have fallen victim to corrupt contractors that have taken these resources, leaving their homes unfinished and their financing need unmet. The State will initially allocate \$20 million to develop the Nonprofit Rebuilding Pilot Program to help homeowners get back into their homes - including both participants and non-participants in the Road Home program.

Activity Description:

These resources are available to all Louisiana residents impacted by the hurricanes of 2005, and will be available to families earning 80% AMI and below that are treated with homelessness. Currently, there is \$9 million remaining in the Rapid Re-Housing program. These funds pay for temporary rental assistance, utility connections and other costs under the program in order to protect an individual from the threat of homelessness.

Location Description:

Hurricane Katrina/Rita affected parishes.

Activity Progress Narrative:

During this quarter, the state planned program design for another initiative to provide rental assistance to families displaced by disaster. These efforts included writing and releasing the Request for Proposals, completing the proposal review process, awarding the contract and negotiating contract terms with the contractor. In addition, OCD staff developed plans to transition clients from other housing assistance programs that will end, in order to ensure continuity of care and service to families at risk of homelessness.

Activity Description:

Before the disaster, a large portion of very low income working families resided in single-family homes, "doubles" and small, multi-family buildings that were owned and operated by small-scale landlords. Many of these properties were underinsured or uninsured, and no longer available for occupancy. The state proposes to provide up to \$869,000,000 in financial assistance to small rental property owners so that they effectively might return an estimated 18,000 affordable and ready-to-be-occupied units to the rental housing market.

A portion of the funds (\$40 million) is set aside as a pilot program to assist in the creation of homeownership opportunities for renters and will be administered by the Louisiana Housing Finance Agency. The primary purposes of this incentive program is to enable small-scale rental properties to return to the market while limiting the amount of debt (and therefore debt service) required for the properties, so that the owners will be able to charge affordable rents. The program will, on a competitive basis, offer incentives in the form of forgivable loans to qualified owners who agree to offer apartments to be occupied by lower income households at affordable rents.. Subsidies will be provided on a sliding scale, and the minimum subsidy will be provided for units made available at affordable market rents to households with incomes at or below 80% of median. The maximum amount of subsidy will go to units affordable to families with incomes at or below 50% of AMI. In addition to funding incentives for providing affordable units in small rental properties, the program will, where practical, make funds available to improve building design and make properties less susceptible to damage from natural events. In general, higher per unit amounts will be available to property owners who agree to offer lower rents to reflect the lower amount of rental income the properties will receive. The assistance will be offered as deferred payment loans at zero percent interest, due only upon resale of the property or failure to comply with the agreed-upon restrictions on rents and household incomes. The program will, on a competitive basis, provide zero interest gap financing to restore units that are rented at affordable rates.

Higher funding amounts, up to \$100,000 per unit are available to qualified landlords who agree to offer lower rents, with the maximum amount of subsidy going for larger rental units where rents are for families with incomes at or below 50% area median income. This program is planned to create 18,000 units - 8,100 Low and 5,400 Moderate income; 13,500 affordable units - 8,100 Low and 5,400 Moderate income; 1,500 assisted units occupied by the low income elderly; 600 units subsidized with project based rental assistance; 4,500 lead safe units; and 1,500 units which meet Sec. 504 accessibility standards.

Location Description:

Disaster affected parishes.

Activity Progress Narrative:

The Small Rental Property Program design was approved by the LRA and the OCD-DRU December 28, 2006. Program managers began receiving applications for the first of multiple competitive rounds on January 29, 2007, and continued to receive them through March 15, 2007, for the general pool, and March 22, 2007 for the non-profit pool. The end of July 2007 marked the deadline for applicants to return their conditional award packages for Round 1 and the application deadline for Round 2.

There are 5,248 total current/Active awardees meeting basic eligibility requirements for competition. The number represents the total in rounds 1, 2 and 2.1. Since the close of all rounds, \$457,848,727 in federal funds has been committed to 4,821 applicants, with the average project award being \$95,000. Of the 4,821, there are 3,455 still moving toward closing.

As of the end of June 2010, \$164,033,745 has been disbursed. There are 302 Current/Active Owner Occupied awards out of total rental closings with 238 closings held resulting in a total of \$12,820,360 awarded for 238 units.

This quarter (1st grant): Total number of units in the activity = 400, including 321 MOD and 79 UN. The minimum number of years that affordability restrictions apply – 10.

Construction Management Initiative Option

Due to the feedback received from applicants and public officials, Small Rental developed a new path to which current SR applicants can complete their affordable units and bring on line faster. The Initiative Program is an alternative for current small rental applicants to choose from. The state will assign a builder and make disbursements to the builder as construction progresses. An outreach was held in Calcasieu parish and Orleans Parish with over a 650 applicant showing. The deadline for contractors to respond to the Request for Proposal was on August 28th. The RFP contractor awardees were posted on the LaPac web site as well as the SRPP website on 18th of September. Both deadlines were met.

Of the total population of Current/Active awardees, 703 applicants are being processed through the Construction Management Initiative Option. By definition and according to policy, these applicants passed and fulfilled requirements of the Incentive Program. This population will be extracted from the Incentive population, and moved to Initiative upon signing and returning Commitment letters.

New Contractor Data

The month of February 2009 marked the kick-off of new contractor evaluations; proposal discussions and BAFO review. Intent to Award Contract to ACS was signed by Paul Rainwater. Contract with OCR was signed as of April 13th, 2009. Small Rental reached all timelines for selection, BAFO, and contract negotiations. Transition process is finalized; all data feeds were completed for Small Rental closings as of May 8th, 2009. Scheduling for inspections and closings has resumed.

Appeals

There have been 2,365 appeals received, and 2,345 have had issue determinations completed and resolved. Staff continues to process files for the Uniform Relocation Act assistance program for Rounds 1, 2 and 2.1.

Activity Description:

HUD approved the release of funds for the First Time Homebuyer Pilot Program; outlined in Action Plan One, Amendment 4; on December 12, 2006 to assist low to middle income borrowers in the acquisition of single family, owner occupied property in the 13 Katrina and Rita affected parishes. The FANO (Finance Authority of New Orleans) has been contracted to administer the funds for Orleans Parish. Their program offers up to \$65,000,000 on a soft second mortgage to a low to middle income borrower for the acquisition of a single family, owner occupied property in one of the City's designated disaster zones. The LHFA (Louisiana Housing

Finance Agency) is contracted to administer the remaining eleven parishes and their use of the funds is in an interest rate buy down and is also used in conjunction with Mortgage Revenue Bonds (MRB).

Activity Description:

HUD approved the release of funds for the First Time Homebuyer Pilot Program; outlined in Action Plan One, Amendment 4; on December 12, 2006 to assist low to middle income borrowers in the acquisition of single family, owner occupied property in the 13 Katrina and Rita affected parishes. The FANO (Finance Authority of New Orleans) has been contracted to administer the funds for both Orleans and St. Bernard Parishes. Their program offers up to \$65,000,000 on a soft second mortgage to a low to middle income borrower for the acquisition of a single family, owner occupied property in one of the City's designated disaster zones. The LHFA (Louisiana Housing Finance Agency) is contracted to administer the remaining eleven parishes and their use of the funds is in an interest rate buy down and is also used in conjunction with Mortgage Revenue Bonds (MRB).

Activity Description:

This program will be funded with \$75M from unallocated Small Rental Program (SRP) funds for the purpose of promoting homeownership and to expand housing opportunities for existing LMI renter households(those earning less than 80% of the area median income), using the supply of Louisiana Land Trust (LLT) Properties. By targeting financial support to the redevelopment of these properties selected by the local governments, this program will also promote neighborhood revitalization in critical areas throughout the Louisiana Gulf Coast. Funding for this initiative will be subject to the guiding principles of the SRP. Specifically, all funding will be restricted to four unit properties and to restoring property that received severe or major damage through Hurricanes Rita or Katrina in the 13 Parishes suffering the most severe damage to their rental housing stocks. The process is designed to work as follows. Parish government officials will be asked to select a pool of LLT parcels to be targeted for re-development as first time homebuyer properties. These properties will be grouped together in clusters whenever possible in order to take advantage of economies of scale and to ensure that their development will have a significant positive impact on the area. The selected properties and commitments for any necessary CDBG subsidies will be offered through a competitive process to qualified developers, including nonprofit and for-profit organizations, that are able to provide a finished property that meets the Program's quality standards and is affordable to the pool on income eligible buyers. Upon completion, the properties will be sold at a market price set at the full cost of development, but the actual cost to the qualified first time homebuyers will be significantly less. The difference or gap will be provided in the form of a no interest, soft second mortgage to the purchaser. The amount of the soft second loan will be scaled to ensure that the actual cost of purchasing the property is affordable to eligible buyers taking into consideration prevailing interest rates, construction and operating costs, and industry standards for affordability, such as 30% of income for housing costs. Funding for an LLT rental property would range from \$10,000 to \$100,000. This soft second loan will be forgiven over time for the period the purchaser remains in the home. However, the program will be structured to provide recapture of benefits in the event of sale. For instance, if the new homeowner sells the property before their soft second loan is completely forgiven, the outstanding principal or a portion of this principal will be due on sale depending on whether the owner has realized a gain over this initial investment, i.e. his equity and the amount of the first mortgage that he took on in order to purchase the property. Purchasers will be selected based on a lottery system. The Parish government may elect to provide priorities to select groups of eligible purchasers, e.g. uniformed workers. Where appropriate, Parish governments may also elect to select a pool of LLT properties to be developed as affordable rental housing, including rent to own developments. Again, any properties developed through an LLT rental initiative would also have to meet the basic requirements previously stated.

Activity Description:

In hurricane-impacted areas, many organizations serving the homeless lost facilities, housing capacity, shelter beds, and staff. Thirty-six shelters sustained considerable damage, and capacity to house up to 1,759 homeless individuals (i.e., 1,759 residential "beds" operated by "Continuum of Care" organizations serving the homeless) was lost. After the hurricane there were reports that an increased number of persons were living on the streets or in parks, cars, and abandoned or uninhabitable buildings in the impacted areas. Many of these persons were

not homeless prior to the storms. The proposed \$25.9 million will support the State's goal to immediately restore and expand capacity in hurricane impacted areas and provide permanent supportive housing and assistance for persons and families who are homeless and persons at-risk of becoming homeless who are low wage workers, unemployed, victims of domestic violence, low-income seniors, and/or low-income persons with any type of substantial disability (including physical or sensory disability, cognitive disability, chronic health problems, mental illness, or addictive disorders). The proposal allows for funding to be prioritized as follows: The highest priority for the use of these funds will be to repair and restore shelter capacity, transitional housing and permanent supportive housing that existed prior to Hurricanes Katrina and Rita. The cost of restoring this capacity is estimated to be \$3 to \$5 million. Priority for these funds will be given to members of the Continuums of Care. Non-member organizations may apply for funding but should document pre-storm homeless efforts in the community and indicate a commitment to coordinating with the local Continuums of Care upon receipt of these funds. A second priority will be the acquisition and rehabilitation of new permanent supportive housing and services by non-profits in the hurricane-affected areas. This priority also includes the option of funding rental assistance (i.e., "bridge funding") linked to permanent supportive housing. The prioritization of non-profits is based on the understanding that some non-profit groups working with homeless and at-risk populations will not have the capacity to apply for tax credits and supportive services funds through the "piggyback" program. This program plans to create 550 beds for the low income individuals needing temporary shelter, provide assistance to 2,400 low income households, and assist 2,400 homeless.

Location Description:

Disaster affected parishes.

Activity Progress Narrative:

For the quarter, April – June, 2010, 505 households were served with Rapid Re-housing Program funds. This brings the total served since the beginning of the program to 7988. Also, for the quarter, 60 individuals were chronically homeless and 336 of the households were female headed. The Shelter Repair Program placed 0 beds in service this quarter.

Activity Description:

The State developed a program to strengthen community-based nonprofits and/or faith-based institutions already providing housing recovery services through the investment of \$2,070,000 of CDBG funds in their activities. The funds will be used to provide housing counseling and outreach to homeowners accessing assistance under the Road Home homeowner assistance program, as well as those homeowners who have not yet completed a Road Home application. This CDBG funded activity will also be utilized for limited legal services to assist mostly low-income clients seeking assistance from the Road Home homeowner assistance program. Services to be provided shall be on a state-wide as-needed basis. Outreach and Housing Counseling assistance may be provided on a limited basis to displaced homeowners living out-of-state. A single non-profit organization will be selected through an RFP process to provide coordination and administrative oversight in the delivery of the legal services through that organization as well as through other qualified non-profit organizations. The successful proposer may either subcontract services through other non-profit organizations to be approved by the State or the proposer may be a consortium of non-profits with a single designated principal organization for contracting and management purposes. For the housing counseling services, the mechanism for making these services available will be through the use of a prime contractor that would be responsible for identifying and assembling a geographically diverse group of nonprofit partners who collectively could provide these services. The selected contractor would be required to provide the variety of assistance that is needed for the preparation of a Road Home application. This includes transportation needs for displaced homeowners in the rural area parishes of the state so that homeowners with transportation challenges can attend required entrance and closing interviews at the Homeowner Assistance Center. In addition, support and application assistance to individuals in the form of language translation for individuals that have language barriers as is many times the case with applicants who are native Spanish, Vietnamese and French language users. Literacy support for individuals with low literacy levels that will experience challenges in understanding program requirements and associated paperwork is necessary. Support for persons with physical disabilities that may hinder them from completing the application process must be provided. Lastly, general support and guidance to the elderly in completing their application is essential for them to achieve maximum benefit under the program. The assistance provided under this section may also include helping clients gather all supporting documents required to complete an application from any relevant source agencies. Provision of document fee support is an allowable expense up to a certain limit. The performance measures on which we would like to report are as follows: # of Households Assisted (Face to Face Counseling) - LMI expected - 1,815 # of Households Assisted (Call Center) - LMI expected - 619

Location Description:

Activity Progress Narrative:

It was reported in the 4th Quarter 2009 Report that SLLS billing issues were being reviewed by a contracted Third Party. The third party has drafted a report with their findings, as well as a corresponding payment recommendation based on their review results. The report is currently under OCD-DRU Executive Management review. Contract closeout will commence upon OCD-DRU approval of the final report and final payment recommendation. The timeline for completion of this task has been extended to the third quarter of 2010.

A single non-profit organization will be selected through an RFP process to provide coordination and administrative oversight in the delivery of the legal services through that organization as well as through other qualified non-profit organizations. The successful proposer may either subcontract services through other non-profit organizations to be approved by the State or the proposer may be a consortium of non-profits with a single designated principal organization for contracting and management purposes. For the housing counseling services, the mechanism for making these services available will be through the use of a prime contractor that would be responsible for identifying and assembling a geographically diverse group of nonprofit partners who collectively could provide these services. The selected contractor would be required to provide the variety of assistance that is needed for the preparation of a Road Home application. This includes transportation needs for displaced homeowners in the rural area parishes of the state so that homeowners with transportation challenges can attend required entrance and closing interviews at the Homeowner Assistance Center. In addition, support and application assistance to individuals in the form of language translation for individuals that have language barriers as is many times the case with applicants who are native Spanish, Vietnamese and French language users. Literacy support for individuals with low literacy levels that will experience challenges in understanding program requirements and associated paperwork is necessary. Support for persons with physical disabilities

that may hinder them from completing the application process must be provided. Lastly, general support and guidance to the elderly in completing their application is essential for them to achieve maximum benefit under the program. The assistance provided under this section may also include helping clients gather all supporting documents required to complete an application from any relevant source agencies. Provision of document fee support is an allowable expense up to a certain limit. The performance measures on which we would like to report are as follows: # of Households Assisted (Face to Face Counseling) - Urgent Need expected - 605; # of Households Assisted (Call Center) - Urgent Need expected - 206

Activity Description:

The Housing Development Loan Fund would provide seed funding for a contractor or state agency to establish one or more loan funds that offer acquisition and predevelopment financing on flexible terms to developers of the most critically needed housing. Providing early, high-risk capital will be a powerful incentive for developers to build mixed-income housing in the communities that lost the most housing. Loans would be made to nonprofit and for-profit developers of new rental and single-family housing that is affordable to families with incomes that are below the area median, with a strong preference for well-designed residential communities and infill housing developments that also include families with incomes higher than the area median. The Housing Development Loan Fund would be operated by a state agency or an experienced community development loan fund manager. A total of \$16,570,000 in CDBG funds, including fund management costs, will be invested as "top loss" capital in order to leverage an estimated \$30 million in additional lending capital. As two priorities, the loan fund would target developers participating in the rental assistance programs described in the previous section, as well as developers of mixed-income for-sale housing. As projects close their construction financing, the acquisition/predevelopment loans would be repaid and the lending capital would become available for additional investments. In a three-year period, it is expected that the funds will recycle two to three times. This program is scheduled to close 40 loans. During this quarter 1 loan was received, reviewed and completed. As currently planned, the Housing Development Loan Fund would be operated on a contractual basis by one or more qualified financial institutions that are experienced in providing early-stage, high-risk property acquisition and predevelopment loans, as an incentive for developers to rebuild existing housing or build new housing at different price points, including affordable homes and rental units. These types of loans are typically not offered by conventional lenders, but instead by the numerous so-called "community development loan funds" across the country. These loan funds are able to take higher risks in lending by

attracting risk-tolerant capital and guarantees from foundations and socially motivated investors. The goal should be to lend the funds at 0% and to subordinate these loans to the private capital in order to provide a strong incentive for developers and to leverage private capital. Many such funds receive some of their capital as grants from the Community Development Financial Institutions (CDFI) Fund of the Department of Treasury. Congress specifically directed the states receiving supplemental CDBG funding should consider the use of up to \$20 million to fund recovery activities of two organizations that are experienced in operating such loan funds: Enterprise Community Partners, Inc., and Local Initiatives Support Corporation.

Location Description:

Disaster affected parishes

Activity Progress Narrative:

This program is combined contractually with the Housing Land Assembly Operations (HLAS) program. They are collectively known as the Enterprise Louisiana Loan Fund. In the early months of this program the number of total applications received was lower than anticipated due to several factors, including the timing of tax credit awards not coinciding with the availability of the loan-fund resources and requests for loans being less than the minimum dollar amount established for the program. The contractors administering this program, Enterprise and LISC, identified and worked to refine the program and increase the number of applicants. March 29, 2010 both LISC and Enterprise 1st Amendments to their contract were approved to extend the contract terms to December 31, 2011 and add Construction Loans were LISC and Enterprise will manage a loan fund capitalized by CDBG funds to make construction loans to non-profit and for-profit developers building and renovating homes. Furthermore, local staff members spent the month of July working on the potential Louisiana Loan Fund (LLF) restructure. Additionally, as the Louisiana Housing Finance Agency (LHFA) Low Income Housing Tax Credit (LIHTC) September 30, 2010 deadline got closer, LISC and Enterprise was actively minding the market for potential deals that may need funding.

By the end of the second quarter of 2010, there were no acquisition/Predevelopment and Early Predevelopment loan applications received. By the end of the second quarter of 2010, there were no acquisition/predevelopment and early predevelopment loans that closed, but 1 close out Acquisition Predevelopment loan for Renewal Homes LP.

Activity Description:

The Land Assembly component of the housing program will serve as an additional way to jump-start development in the communities that lost the most housing as a result of hurricanes Katrina and Rita. This will be done by providing seed money to acquire multiple properties in good locations for replacement housing and package them for sale or grant to maximize further affordable housing development for example, to developers using CDBG-supported LIHTC tax incentives to develop rental housing, to supportive housing developers, to self-help ownership housing developers, etc. This program component will operate only in those jurisdictions where: 1. These activities are requested or supported by local governments; and 2. Local governments have substantially engaged in the planning work required to target areas that are suitable for the development of replacement housing. A total of \$2,070,000 of CDBG funds are budgeted for capital to purchase residential properties as well as operating costs. The capital used to purchase properties will be recycled through sales of properties to developers. As a related activity, properties assembled through buy-out programs, funded through the State's homeowner assistance program, might be offered at below-market costs to developers of affordable or special needs housing. One of the targets of these sales of State-purchased properties would be to encourage the development of mixed income developments that include renters with incomes below 40% of area median income. If such assembled properties were not purchased and developed by affordable developers in accordance with strict income requirements, they still might carry a requirement that a certain percentage of the units developed on CDBG assembled land would be affordable with less stringent income and pricing requirements, but still ensuring that mixed-income developments occur in redevelopment areas. However, the \$2 million Land Assembly fund is fundamentally different from and should not be confused with the buyout provisions of the Homeowner Assistance Program. This budget line item is not intended for purchases of single-family homes. Instead, the intention is to contract out to one or more qualified organizations that can identify

suitable sites for housing development in the most distressed parishes and obtain options on them. The State intends, through contractual arrangements, to fund a small team of property acquisition experts who will scout out, analyze and obtain options on suitable sites that are not currently on the open market. These could include surplus properties held by government agencies, nonprofits, churches and businesses. Some might be Brownfield sites that could be cleaned up quickly and at feasible costs. This Land Assembly operation would result in assignable options in the name of the State of Louisiana or some designated quasi-public entity. These options, in turn, would be offered to developers on an open, competitive basis.

Activity Description:

As prescribed by program rules, the State must adhere to HUD's regulations with respect to oversight of compliance with environmental statutes and authorities. The State has developed comprehensive procedures to ensure compliance with HUD's CDBG program regulations for each funded project. The State will verify that each project that requires it has been environmentally cleared prior to any construction activity. In order to ensure that this responsibility is fulfilled, the services of an environmental consulting firm, Environ, will be engaged to evaluate and provide written analysis for a broad range of environmental studies. These evaluations will follow applicable laws and regulations, which may include the National Environmental Protection Act (NEPA) environmental review procedures relating to HUD-CDBG activities, and/or other local, state or federal environmental laws. Once the contract is signed, Environ will be responsible for the environmental review for approximately 2000 state buildings, as well as site-specific review of approximately 2,950 small rental units (from 1-4 units) to determine if historic preservation issues, such as historic structures and archaeological artifacts, are cleared before any new construction or reconstruction begins. These will be handled through the Environmental Section of OCD-DRU through the use of work orders and regular updates that are sent by Environ.

Location Description:

N/A

Activity Progress Narrative:

In the second quarter of 2010, the environmental section began the environmental review on additional LLT properties in Orleans, Jefferson, St. Tammany, Plaquemines and St. Bernard parishes. Work began in Plaquemines parish on the Parks and Recreation Improvements in Port Sulphur and the East Bank Consolidated Services complex. Work began in Orleans parish on the Behrman Park Enhancements; in Lafourche parish for the Twin Oaks Drainage Project, in Tangipahoa parish on the construction of the Amite Library and in St. Bernard Parish on the Seafood Farmer's market.

Work also began on projects in the Primary and Secondary Education Program including the Luling Elementary School Lab in St. Charles parish; the Belle Chasse Warehouse Renovations, the Belle Chasse Warehouse Renovations, the Woodland Central Office Renovations and the Head Start facilities in Plaquemines parish; the Madisonville Junior High Additions in St. Tammany parish and multiple projects at Grand Lake High school in Cameron parish. Fisheries activities included restoring the Cameron Co-op Fisheries Communities in Cameron parish.

Continuing reviews include the Braithwaite to White Ditch Levee Elevation and the Consolidated Parish Government Complex, the Village of Sun activity including replacement of their telemetry system, treatment

units and water well site No. 2 generator. Fisheries activities include the East Houma Surge Protection Levee in Terrebonne Parish and the renovation of the University of New Orleans University Center.

Completed work this quarter include environmental review of LLT properties in Allen parish, Beauregard parish, East Baton Rouge parish, Lafayette parish, Lafourche parish, St. Landry parish, St. Martin parish and Vernon parish. Other completed projects include the City of Gretna WWTP Generator; the Kenner Life Stations #4106 and #4100.; the Town of Grand Isle – La Avenue and Admiral Craik Drive Drainage and Road Improvements; ; the City of Kaplan Electrical System Hardening, Upgrade and Construction; the Washington Parish Communication Tower; the Erath Fire Station; Comisky Park in Orleans parish; the St. Bernard parish Raw Water Pumping Station; the Delcambre Redevelopment project and the Houma Marina.

Activity Description:

The project acquires 16.5 acres of land that was previously sold by the City and the Alabama Great Southern Railroad Company. This land will enhance the function of the Lafitte Greenway project, a proposed 3.1 mile bicycle/pedestrian trail and greenway/cultural corridor that connects Armstrong Park with City Park via Bayou St. John and the Marconi Boulevard bike route. Preexisting utilities will be removed and site clearance will be performed.

Location Description:

bounded by St. Louis, N. Dorgenois, Lafitte Street, N. Galvez and N. Claiborne Avenue, New Orleans, LA 70119

Match Contributed	\$0.00	\$0.00

Activity Description:

This project centers on the historic preservation of 5 residential locations. These locations were chosen with an eye toward revitalizing the residential areas and rebuilding the neighborhood community. Typical purchasers of the residential properties under this program are low-moderate income and new to homeownership, and providing these populations with reasonable housing is a good way to begin increasing occupancy in an area where only about 50% of the residents have returned.

Location Description:

603 Forstall St., 5450-52 Dauphine St., 1423 N. Claiborne Ave., 2200-02 St. Philip St., 2404-06 St. Ann St.

Activity Progress Narrative:

\$520,492.11 was expended for the 2nd quarter of 2010 for construction and demolition for Operation Comeback-Home Rehabilitation.

Activity Description:

The Greater New Orleans Community Health Connection (GNOCHC) is a new Medicaid Section 1115 Waiver Demonstration program to provide primary and behavioral health care services to low-income, uninsured adults in the Greater New Orleans area between October 1, 2010 and December 31, 2013. This program is an outgrowth of a three-year Primary Care Access and Stabilization Grant (PCASG) that ended in September 2010. This program (GNOCHC) will transition PCASG providers to a financially sustainability model that incorporates Medicaid, LaCHIP, and other payor sources as the revenue base by January 1, 2014, when a majority of low-income uninsured adults will have health care coverage either through Medicaid or the State Health Benefits Exchange as mandated by the federal health care reform Affordable Care Act (ACA).

Location Description:

Greater New Orleans area, including Orleans, St. Bernard, Plaquemines, and Jefferson Parishes

Activity Description:

HUD approved the release of funds for the Ratepayer Mitigation Program; outlined in Action Plan One, Amendment 6; on February 9, 2007, to defray gas and electric utility system repair cost in an effort to mitigate rate increases that would otherwise be passed on to the New Orleans gas and electric utility ratepayers. The 118,800 people this program is designed to benefit is 54% of the total New Orleans population.

Location Description:

Disaster affected parishes

Activity Progress Narrative:

Construction.

Activity Description:

This project seeks to return Craig Elementary to an operational status and help alleviate that burden on other schools in the City of New Orleans. Extensive work will be completed in several phases. The first stage is selective demolition and remediation of compromised areas of the structure. Secondly, renovation will be undertaken for the public facility in such areas as replacement and/or repair of the roof, windows, restrooms, concrete slab, a new kitchen, among other things. Finally, under public services, funding will be provided for a folding performance stage, modern kitchen equipment, and stackable washer/driers.

Location Description:

1423 St. Phillip St., New Orleans, LA 70116

Activity Progress Narrative:

\$863,821.93 was expended the 2nd quarter of 2010 in construction of Craig Elementary School Improvements.

Activity Description:

This project provides funding for the two (2) year lease renewal of two (2) "sprung buildings" at the site of the temporary South Plaquemines High School and Phoenix High School. These buildings were erected at the site of the temporary schools, serving a multi-purpose function by providing a large, enclosed gathering space with air conditioned environment for use by Plaquemines Parish School Board, its students, staff and the residents of the communities. The purpose of this project is to provide necessary public services to the affected areas by providing an enclosed gathering space for a variety of community and educational needs.

Location Description:

South Plaquemines High School (Temp. Location) 309 Civic Drive, Port Sulphur, LA 70083 and Phoenix High School 13073 Highway 15, Braithwaite, LA 70040

Activity Progress Narrative:

Funds were obligated this quarter for a now cancelled activity. This activity is recycled, and these obligations presented this quarter are current as of this QPR, and has since been broken out into separate activities.

Activity Description:

Of the \$595 million now allocated to local emergency government infrastructure, \$200 million is allocated for Primary and Secondary Education Infrastructure. Working with the LRA, the Department of Education will develop needs-based criteria to prioritize the allocation of the funds to the school districts. These funds will flow to the affected school districts through the Office of Community Development. Schools that are repaired or rebuilt shall demonstrate they have taken into account specific educational and repair goals to build back better facilities. In addition, rebuilding plans will address local community planning priorities, including opportunities for shared use of school facilities with other public agencies, such as libraries. The performance measures the State of Louisiana would like to report are as follows: Expected Low Mod Total # of School Districts Benefiting 0/3 0/16 # of Facilities Rehabilitated/Built 0/60 0/100

This program provided temporary six-month working capital loan guarantees to owners of small businesses with less than 100 employees. There were three different releases of bridge loan funds. Each release varied slightly in how it was administered. The first bridge loan program was for \$10 million, the second totaled \$30 million and the last installment totaled \$55 million. The Bridge Loan program had no leverage requirement; therefore, information on the amount of private funds generated by the businesses is unavailable. The number of businesses reported could include businesses that have more than one bridge loan.

Location Description:

In Hurricanes Katrina and Rita affected parishes.

Activity Progress Narrative:

As of June 30, 2010, the State of Louisiana has paid out \$4,863,111.66 in defaulted bridge loans. The state has collected back \$2,531,590.24. The amount collected back is 52% of the amount paid out.

Activity Description:

HUD approved the release of funds for the Research Commercialization and Educational Enhancement Program; outlined in OCD's Action Plan One, Amendment 5; on January 3, 2007, to provide funding to retain and rebuild the research and educational capacity of the affected areas by developing a strategic plan and a pilot program based on the strategic plan. Eligible applicants would be limited to institutions of higher education in southeastern Louisiana. Action Plan One Amendment 5 declares eligible applicants are limited to institutions of higher education in the southeastern Louisiana: Baptist Theological Seminary, Delgado Community College, Dillard University, LSU Agricultural Center (hurricane-impacted facilities), LSU Health Sciences Center-New Orleans, Louisiana Universities Marine Consortium, Loyola University New Orleans, McNeese State University, Nunez Community College, Our Lady of Holy Cross College, Southern University-New Orleans, SOWELA Technical Community College, Tulane Health Sciences Center, Tulane University, University of New Orleans, and Xavier University of Louisiana.

Location Description:

Disaster affected parishes.

Activity Progress Narrative:

Mid-Term Evaluations

University: Loyola University 10 – John Snyder, PI

Project Name: New Orleans Music, Entertainment and Educational Consortium

University: Dillard University 11 – Kevin McLin, PI
 Project Name: Multi-Media Intercollegiate, Interdisciplinary Technological Research

The last two RC/EEP Mid-Term Evaluations were conducted on June 17, 2010 by consulting evaluator James Progris, MM, Professor Emeritus, Department of Music Media and Industry, Music Business and Entertainment Industries at the University of Miami. On June 16 and 17, the Consultant, RC/EEP Manager and Board of Regents (BoR) Special Projects Manager met with the Loyola University Principal Investigator (PI) for the New Orleans Music, Entertainment and Educational Consortium, John Snyder, his staff and sub-contract partners from Dillard, Delgado and the University of New Orleans for the project review. Similarly, the following day, the same parties from the BoR met with the PI (Kevin McLin) and Co-PI (Mark Raymond) of Dillard's project Multi-Media Intercollegiate, Interdisciplinary Technological Research for the Mid-Term review. The eleven written Mid-Term Evaluations have been forwarded to the Office of Community Development

Internal Audit Activities

In addition to reviewing the project requests for reimbursement for the quarter ending March 31, 2010, the RC/EEP Internal Auditor continued work on the Attestation Agreements with Sub-recipients and their sub-contractors.

RC/EEP LOGAN Quarterly Report Redesign

On June 9 the RC/EEP Manager conducted a meeting about the redesign of the RC/EEP LOGAN report. Prior to the Interagency Transfer agreement, the six performance indicators were established for the program. It was not until the projects were fully operational that it became apparent that there was a need to clarify and better define the indicators because of the uniqueness of each of the projects and the indicators being difficult to measure.

All projects were instructed to revise the eleven RC/EEP LOGAN Quarterly Reports since the September 1, 2010 inception date through June 30, 2010. The revised reports are due on LOGAN no later than September 17, 2010.

Other Administrative Issues

The RC/EEP Manager directed the projects to submit the Flood Insurance Renewals to her as they became available. They were also reminded that a copy of the renewals should become part of their on-site program file and should include those of the sub-contractors, if applicable.

As a result of a new regulatory interpretation, the requirement for RC/EEP projects to collect LMI forms for students has been lifted. It seems that the HUD classification of the program as "Urgent Need" excludes the necessity for the completion of the forms.

For the second quarter of 2010; 172 articles had been published in or under consideration by peer-reviewed publications; 54346 students recruited or retained in academic positions; 221 faculty recruited or retained in academic/research positions; and 300 technology transfers, disclosures, patents, licenses were applied for or received.

Activity Description:

St. Thomas Community Health Center ("St. Thomas CHC") is a New Orleans based comprehensive non-profit health care provider, designated as a U.S. Public Health Service ("PHS") section 330-funded Federally Qualified Health Center ("FQHC") with the single mission of serving low-income, uninsured and underinsured target population of Orleans Parish. Approximately 75% of St. Thomas CHC patients are uninsured. St. Thomas CHC currently operated two clinical sites located in the Lower Garden District Neighborhood of New Orleans. All three sites are located in census tract number 22071008200, a highly distressed low-income community census tract as defined by the U.S. Census Bureau. St. Thomas CHC proposes to expand and dramatically improve its vital health care service capacity through a capital building project acquisition, historic restoration and renovation to include 10,212 additional square feet located at 1936-1938 Magazine Street ("Magazine St. Project"). one-half block from its existing clinic location.

Activity Description:

The Small Firm Recovery Loan and Grant Program is proposed as a program to target assistance to small firms that are deemed to have a chance to survive, contribute to the economy, and maintain and create jobs. Funds would support low-cost loans on flexible terms, small grants to reimburse for tangible losses, and technical assistance to support the firms receiving the financial support, some of which may not qualify for or have received bank and/or Small Business Administration (SBA) loans. Firms assisted would be those expected to survive and pay back the funds if given an opportunity for a loan. Firms will be asked to provide a plan showing how they would use the loans, grants, and technical assistance to survive and move ahead. Louisiana plans to implement a program that is similar to that developed and used in New York after the terrorist attacks on 9/11/2001. Through a Request for Proposals (RFP), Louisiana will seek proposals from nonprofits and community development financial institutions that would be used as intermediaries to provide working capital loans on flexible terms and small grants to reimburse for tangible losses to small firms, including nonprofits, and technical assistance services to companies receiving loans and grants. Results after 9/11 showed that technical assistance linked to the loans and grants was found to be important for the success of the small firms and subsequent repayment of the loans. Among other things, potential contractors seeking to offer assistance to small firms through this program will define in their RFP response information about the amount of funding to be dedicated to the loan category, grant category, or for technical assistance. Firms to be assisted would be those located in the parishes in southeast and southwest Louisiana most affected by hurricanes Katrina and Rita, including but not limited to those with substantial infrastructure damage. This program is planned to close 140 loans, award 2,400 grants, and create or retain 2,400 jobs.

Activity Description:

Firms to be assisted would be those located in the parishes in southeast and southwest Louisiana most affected by Katrina and Rita, including but not limited to those with substantial infrastructure damage. Because of the impacts of the storms, many firms need assistance in dealing with changed circumstances. Small firms in niche sectors such as fisheries, tourism, or the cultural economy may require unique assistance that can be provided by nonprofits with a proven track record within that sector.

Through this program, technical assistance will be provided in areas such as business management, strategic planning, accounting, insurance, marketing, and legal. Similar to a technical assistance program created in New York after 9/11/2001, Louisiana will seek proposals from intermediaries, which would provide some form of technical assistance. The technical assistance may be provided to existing small firms, to entrepreneurs/persons seeking to start a new business to locate within and take advantage of opportunities in the most affected parishes, and/or provided in other ways that help address the unique needs for local/regional business recovery. The contracting agency will retain the right to select all or some of the applicants, reject any or all proposals, select all or fewer than all responding to the RFP as part of a consortia or partnership, allocate funds in any amount depending on the number and quality of the proposals, and negotiate any part(s) of any proposal. Respondent organizations will be encouraged to develop partnerships with other groups to provide a team that might serve a specific geographic area or specific type of company or industry.

Location Description:

Disaster affected parishes.

Activity Progress Narrative:

During the 2nd quarter, Closeout documents were sent to all intermediaries. Closeout processing has started for those intermediaries who have completed and submitted the requested information. Final Closeout of the TASF program is anticipated during the 3rd quarter of 2010.

The technical assistance may be provided to existing small firms, to entrepreneurs/persons seeking to start a new business to locate within and take advantage of opportunities in the most affected parishes, and/or provided in other ways that help address the unique needs for local/regional business recovery. The contracting agency will retain the right to select all or some of the applicants, reject any or all proposals, select all or fewer than all responding to the RFP as part of a consortia or partnership, allocate funds in any amount depending on the number and quality of the proposals, and negotiate any part(s) of any proposal. Respondent organizations will be encouraged to develop partnerships with other groups to provide a team that might serve a specific geographic area or specific type of company or industry.

Activity Description:

Hurricanes Katrina and Rita dealt a devastating blow to the economic engine in South Louisiana. Approximately 360,000 Louisiana citizens are estimated to have been displaced outside of the State (LRA analysis of population estimates). Some 1.3 Million FEMA applicants were scattered across 50 states by Hurricane Katrina alone (FEMA). It is reported that approximately 18,000 businesses were severely damaged or destroyed, and 220,000 jobs are estimated to have been lost due to the hurricanes (BLS). The loss of jobs from the hurricanes impacted every sector from healthcare and construction to retail and tourism. The Recovery Workforce Training Program (RWTP) will address the loss of jobs and the re-employment of our workforce as a top priority in the recovery of the impacted areas and the long-term recovery of the State's overall economy. The program is centered on three inter-related factors critical to the recovery of Louisiana's economy: the return of the displaced workforce; the retention of the existing workforce; and a concerted effort to increase skills development for new jobs in sectors related to the immediate and long-term recovery and rebuilding efforts and the future of our economy. This program is planned to train 9,526 people total to be productive members of the workforce. 4,858 will be in the moderate income range.

Location Description:

Activity Progress Narrative:

In the second quarter of 2010, one of the subrecipients, LPHI, LTC IV Advanced Manufacturing and LTC IV Construction, announced they no longer wanted to carry out their respective programs. The funds were

consequently de-obligated from those subrecipients and reallocated to ABC, Delgado Transportation, Fletcher, Department of Corrections, and SOWELA, due to their high performance levels. These subrecipients are expected to train more individuals with this increase in funding.. The Program Managers performed site monitoring visits on the subrecipients during this quarter. The LWC and OCD continued to work with the subrecipients in order to clear up more HUD OIG findings.

Activity Description:

HUD approved the release of funds for the Supportive Housing Services program; outlined in Action Plan One, Amendment 1; on May 30, 2006, to offer grants for Permanent Supportive Housing (PSH) which are designed to provide flexible, community-based supportive services for special needs households linked to affordable rental housing units in community-integrated, non-institutional settings. The Louisiana Department of Health and Hospitals (DHH) will serve as the lead agency for funding, administration, and monitoring of CDBG funds for the Grants. Grants will also be made to sub-recipient Local Lead Agencies designated by DHH and by the Louisiana Department of Social Services (DSS). The Local Lead Agencies will conduct outreach to identify individuals eligible for PSH, develop and maintain waiting lists, enter into agreements with providers of PSH units, pre-screen, prioritize and refer eligible individuals for PSH, and provide the necessary services. This program is planned to assist 3,000 low income people by providing them with new access to a service.

Location Description:

Disaster Affected Parishes.

Activity Progress Narrative:

For the quarter, April – June, 2010, 387 new PSH households received services. This brought the total number of households receiving assistance since the inception of the program to 1881. All of the households served have incomes below 30% AMI. 189 of the 387 households served are female headed households. 256 of the households were served in the New Orleans Metro area. Of the 387 households served, 128 were homeless and 67 individuals were chronically homeless. As of the end of the 2nd quarter, there are a total of 970 female headed households served and 1328 served in the New Orleans Metro area. Since the beginning of the program 660 homeless and 232 chronically homeless households have received supportive services.

Activity Description:

In the wake of the devastation wrought by Hurricanes Katrina and Rita, Governor Blanco established the Louisiana Recovery Authority (LRA) to plan the recovery and rebuilding of Louisiana. The LRA was established by Executive Order KBB 2005-63 on October 17, 2005. Due to the unprecedented scale of destruction to southern Louisiana, the Governor determined that a single state agency should coordinate the resources committed by various state, federal, and private entities toward disaster recovery. The LRA coordinates, leverages, and targets these newly committed resources with existing state and federal resources to improve their efficiency and effectiveness and to avoid duplication of efforts. In accord with the scale of the disaster, LRA's planning responsibilities are broad in scope. The LRA is charged with securing funding and other resources for recovery efforts. The LRA has established priorities and continues to develop strategies for disaster recovery. The LRA leads long-term community and regional planning efforts and works to ensure transparency and accountability. It also assists coordination of resource allocations as it pertains to issues that may include, but are not limited to the following: 1) economic and workforce development; 2) environmental quality and review; 3) temporary and permanent housing; 4) healthcare; 5) infrastructure and transportation; 6) education; 7) fiscal stability; 8) family services; and 9) law and order.

Location Description:

Disaster affected parishes.

Activity Progress Narrative:

\$3 million in Planning funds were used to develop the Parish Planning Capacity Program. This program fund planner positions in parishes impacted by hurricanes Katrina and Rita over three years in an effort to establish/ augment parish planning departments and support disaster recovery related activities. Thus far the seven parishes have hired nine planners under the program. One planner hired under the program leads Iberia parish program on mapping and GIS systems and analysis of the DFRIM maps. In Cameron, Calcasieu and Terrebonne parish planners focus activities on the Long Term Community Recovery plan implementations and work closely with state staff on program development and project management.

Activity Description:

Supports the administrative work conducted to implement disaster recovery projects funded with these resources. This includes technical assistance as well as general administrative costs.

Location Description:

Office of Community Development (OCD)

Activity Progress Narrative:

The Disaster Recovery Unit (DRU) of the Office of Community Development (OCD), Division of Administration (DOA), was created in the aftermath of the 2005 hurricanes Katrina and Rita. The DRU administers the CDBG Disaster Recovery funds approved by Congress on December 23, 2005; June 30, 2007; and January 15, 2008. Personnel were hired from around the United States, as well as within Louisiana, with experience in all aspects of CDBG programs. Managers and staff were retained in the areas of homeownership housing; multifamily, rental, and supportive housing; infrastructure; economic development; policy and reporting; legal; and financial and auditing. Experienced employees of the OCD-CDBG Program provide training as needed to newly hired. In addition, the OCD continues to supply CDBG training in partnership with the Council of State Community Development Agencies and ICF International. The DOA's resources are available to augment the DRU with expertise in budgeting, accounting, contract review, and legal matters. The DRU is in close contact with the Louisiana Legislative Auditors, although the last contract (Agreed Upon Procedures) the DRU had with the Legislative Auditor Recovery Assistance Services (RAS) expired June 30, 2010. This contract was for RAS to review contractor invoices. RAS elected not to extend the services.

At the close of this quarter, the OCD-DRU had 76 full-time employees, 4 part-time employees, and 9 student workers. The LRA had 21 full-time employees, and 2 Katrina Cottage employees. The DRU received approval in May, 2010, to raise the total number of staff to 89. This does not include the 30 approved LRA positions. The administrative budget is used to fund salaries and related benefits, travel expenses, operating supplies and services, professional services, and inter-agency transfers. As the OCD-DRU further develops and

implements program monitoring plans this quarter, travel expenses remain steady. The state follows the State Procurement Code. All sub-recipients are required to follow Title 24 Part 84 and Part 85. Monitoring plans are still being developed for the new disaster recovery activities funded under this program.
